Subject: RE: Methyl bromide supplier on PR...

Hi Paul,

PRDOA and EPA CEPD inspected the 2 companies that had been identified as selling the pesticide to Terminex in VI. Neither one had any methyl bromide (MB) on site. Both had sold the pesticide in the past, and will be providing invoices to PRDOA tomorrow. PRDOA also contacted Great Lakes, which is the manufacturer of MB, requesting a list of all distributors of MB on the islands.

I will let you know when we find out more.

Audrey
